

BITTING CLINICS

Navigating the world of bits can be daunting but choosing the right bit for your horse can make a huge difference to performance.

Through our systematic and logical approach to bitting we can help you improve your communication with your horse; solve issues of discomfort and resistance; and help you understand what is really happening at the end of those reins.

We are happy to give advice over the phone, or by email, but if you would like us to come and work with you and your horse in person, check our “Events” tab for up-coming bitting clinics.

What about getting a group together at your yard and we will come out just to see you?

To book in for a friendly and professional consultation, drop us a message or contact us via

email: info@equineequip.com

telephone: 0333 577 6770
